LOCAL HOSPITAL LAUNCHES NEW ONLINE NURSERY

Ukiah Valley Medical Center (UVMC) recently launched a new online nursery. Family and friends around the world can now get a look at new arrivals to the hospital. The hospital website, www.uvmc.org, provides parents with a free website that features their infant’s first photograph and birth information. The birth information includes the day they were born, time they were born, weight and length. Family and friends can also post congratulatory messages on the page for the new baby.

To locate a newborn baby born at UVMC go to www.uvmc.org and click, “online nursery.” Then choose the month, day and year the baby was born and select from the list of babies.

“The online nursery allows friends and family that are long distances away to get a first view of the baby right after the birth,” said Nancy Bray, RN, UVMC’s Interim Family Birth Center Director. “I used an online nursery myself to view my great nephew, when he was born in Maine.”

The baby’s photograph can also be purchased along with other priceless keepsakes. A portion of every photo purchased supports the hospital. Proceeds help fund various educational projects for hospital staff and the community, in-hospital services, and equipment needs.

For more information on UVMC’s online nursery log onto www.uvmc.org.

###

Ukiah Valley Medical Center is part of Adventist Health, a not-for-profit, faith-based health system operating in California, Hawaii, Oregon and Washington. Founded on the Seventh-day Adventist heritage of Christian health care, Adventist Health is comprised of 20 hospitals with more than 3,100 beds, 19,000 employees, numerous clinics and outpatient facilities, 16 home care agencies and three joint-venture retirement centers. For more information, visit www.uvmc.org or www.adventisthealth.org.
